colour design

with Debbie Abercrombie

I love working with colour! Colour is an exciting and powerful approach to design, it is a wonderful tool that can change how we feel about our environment or the way we perceive space and shape. Colour can make or break a room, a building, a product or a design concept. We live in an ever changing and demanding world, where colour can add value in many ways, whether it be to stimulate, calm or enhance where we work, live and play! **Debbie Abercrombie**

Debbie Abercrombie runs her own Interior Design consultancy and has a strong background in textiles and styling in the Interior Design Industry as well as a Diploma in Fashion Design (AUT).

Debbie has been teaching classes in Auckland for the last two years, prior to that she was a tutor for five years with the Wellington Polytechnic Interior Design correspondence course.

Debbie will introduce you to the magic and manipulation of colour through theory, practical knowledge and exercises to develop your own passion for colour and design.
